India Meteorological Department - Regional Nowcast

Bulletin No. AHM/NC/2025/1187 - Issued 13:05 IST

A severe thunderstorm with squalls is likely over Gujarat from 17:00 to 22:00. Gusts of 70-90 km/h expected over Kutch and Saurashtra.

Wind turbines in the region may trip on high-wind cut-out. Solar output is expected to collapse under dense cloud.

Advisory: utilities should keep reserves and secure exposed equipment.
